Portfolio: allisonelpiner.com

I am an aspiring designer with a strong foundation in information design and user-centered design principles. With an interest in sociology, I integrate an understanding of human and social behavior into my work. I also enjoy front-end coding and engage in freelance design work.

Skills

Figma HTML/CSS Photoshop Prototyping Communication

Disciplines

Major: Technology and Information Design **Minor:** Sociology

Relevant Academics

Information Science Capstone, Fall 2025 - Created high-fidelity prototypes using Figma for a real-world client in a group setting.

Visual Design Studio, Fall 2024 - Created high-fidelity prototypes using Figma. Engaged in an iterative process through class presentation and critique.

Designing Fair Systems, Spring 2024 - Engaged in critical thinking and ethical debates surrounding information design. Hypothesized and tested methods of promoting equality in existing digital systems.

Prototyping and Development, Fall 2023 - Created and engaged with user focused digital design on Figma. Placed particular emphasis on iteration and collaboration through feedback.

Photoshop for Graphics, Fall 2022 - In-depth study of digital editing, manipulated scanned images and digital photographs in preparation for publication layout and design and web output.

Education

Walter Johnson High School - Bethesda, MD - Graduated in 06/2021

University of Maryland - College Park, MD - Expected to Graduate 12/2025
